NOTES:

The nature and impact of the revised HKFRSs are described below:

- (a) Amendments to HKFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.
- (b) Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while br

BUSINESS REVIEW

During the six months ended 30 June 2022 (“Period 2022”), international crude oil prices increased due to the complex and unstable situations in mainland China and overseas, such as the conflict between Russia and Ukraine which triggered a wave of sanctions from Western countries against Russia, accelerating global inflation. In response to the current economic situation, the Federal Reserve Board of Governors of the U.S. (“Federal Reserve”) undertook a tight monetary policy and announced an increase in the federal funds rate range in March, May, June, and July this year, with the increase amounting to 225 basis points in aggregate, causing substantial shocks to the global economic growth and the financial markets. In China, strict lockdown measures, inter-city travel restrictions and quarantine requirements for inbound travellers have been implemented by the government in response to the resurging Coronavirus Disease 2019 (“COVID-19”) pandemic, especially in the city that has contributed the most to the national gross domestic product, Shanghai, which has adopted static management in April and May this year, leading to a sharp contraction in economic activities and a significant slowdown in economic growth during Period 2022. On the other hand, the long-term cash flow crisis of the real estate industry in China, being the major pillar of the local economy, has posed significant impacts on fixed asset investments, local fiscal revenue, the financial industry and employment, resulting in rising interest rates, weaker-than-expected economic growth, reduced confidence from consumers and investors, and poor market sentiment.

Despite the significant fluctuations in international crude oil prices and the recurring outbreak of COVID-19 in China, Zhong Hai You Qi (Tai Zhou) Petrochemical Company Limited* (中海油氣(泰州)石化有限公司) (“Zhong Hai You Qi”), the Company’s joint venture, was profitable during Period 2022. In addition, the operation management team of Zhong Hai You Qi has strived to achieve effective cost reduction and efficiency enhancement during Period 2022, resulting in a decrease in the total cost per tonne of oil and an increase in the profit per tonne of oil, as compared to those for the six months ended 30 June 2021 (“Period 2021”). During Period 2022, the second phase of Zhong Hai You Qi’s project for the development of high-end lubricant oil products has been progressing as scheduled. It is expected that the construction of the facilities to manufacture such lubricant oil products will commence by the end of this year.

Investment

During Period 2022, the expectation of interest rate hikes initiated by the Federal Reserve has triggered a decline in the prices of most of the global assets. Coupled with unfavourable investor sentiment, both the Group’s progress in realising its non-performing asset investments with real estate being the underlying assets and the yield generated from these investments were significantly under expectation. After due consideration, the Group has adjusted its business strategy in a timely manner and decided to speed up the disposal of its existing investments.

On the other hand, the Group has redirected its focus to equity investments in Period 2022, targeting the new energy industry and its sub-sectors. Driven by the vision of “carbon neutrality”, the world is entering into an important historical period of high-carbon to low-carbon transition. Against such backdrop, it is expected that there will be technological competition centred around carbon neutrality, leading to long-term development of the new energy industry. The Group believes that the new energy industry will enter into a long-term growth period in the next two decades due to the high demand brought about by the transformation of the energy structure, and engagement in relevant sub-sectors of the new energy industry will become an essential initiative for the Group to seek strategic transformation.

The Group has made investments in certain enterprises in the PRC which are classified by the Group as financial asset

Property Leasing

The rental income from the Group's property leasing business amounted to approximately HK\$58,934,000 for Period 2022, representing an increase of approximately 35.25% from that of approximately HK\$43,574,000 for Period 2021. Revenue from the Group's property leasing business segment was derived from East Gate Plaza, an investment property of the Group located in Beijing, China, which comprises a residential section and a commercial section. The increase in the rental income for Period 2022 was caused by (i) the increase in the occupancy rate of East Gate Plaza from approximately 80% in Period 2021 to approximately 85% in Period 2022, as a result of the ongoing increased marketing efforts of the Group's property operation team to actively recruit new tenants for the vacant areas in East Gate Plaza and retain the existing tenants of the property; (ii) the improvement in the Group's property management service standard and the re-branding of the commercial section of East Gate Plaza by the Group to attract more high-quality tenants; and (iii) the increase in the average rental rate of East Gate Plaza of RMB728 per square metre per month in Period 2021 to RMB758 per square metre per month in Period 2022, which were partially offset by the loss on the foreign exchange translation of the rental income due to the depreciation of the RMB against the HK\$ during Period 2022.

PROSPECTS AND OUTLOOK

Looking forward to the second half of 2022, it is expected that the global economy will continue to face considerable uncertainties. Further tightening of monetary policies in major Western

- (a) the turnaround in the result of Zhong Hai You Qi from a loss of approximately HK\$307,119,000 for Period 2021 to a profit of approximately HK\$58,214,000 for Period 2022, mainly attributable to (i) the additional sales tax and related tax surcharge and late fee of approximately RMB490,000,000 in total incurred by Zhong Hai You Qi during Period 2021, which were absent during Period 2022; (ii) the change of Zhong Hai You Qi's product mix to petrochemical products with higher profit margins in Period 2022; and (iii) the improvement of Zhong Hai You Qi's production process, which resulted in a reduction in its production costs in Period 2022;
- (b) the increase in other income, gains and losses from approximately HK\$155,684,000 for Period 2021 to approximately HK\$277,560,000 for Period 2022, mainly due to the increase in the interest income arising from the increase in the loan receivables during Period 2022; and
- (c) the increase in the finance costs incurred by the Group from approximately HK\$166,760,000 for Period 2021 to approximately HK\$277,064,000 for Period 2022, mainly attributable to the increase in the Group's bank loans and other borrowings during Period 2022 from those during Period 2021.

The basic loss per share attributable to ordinary equity holders of the Company was 6.35 HK cents for Period 2022 (Period 2021: basic loss per share of 10.90 HK cents).

A. Rental income

The increase in the rental income earned by the Group from approximately HK\$43,574,000 for Period 2021 to approximately HK\$58,934,000 for Period 2022 was mainly due to the increase in both the occupancy rate and the average rental rate per square metre per month of the Group's investment property located in Beijing from Period 2021 to Period 2022, which was partially offset by the loss on the foreign exchange translation of the rental income resulted from the depreciation of the RMB against the HK\$ during Period 2022.

B. Interest income

The increase in interest income (excluding interest income from bank deposits) from approximately HK\$153,431,000 for Period 2021 to approximately HK\$244,247,000 for Period 2022 was mainly due to the increase in the interest income generated from loan receivables from approximately HK\$101,168,000 for Period 2021 to approximately HK\$206,846,000 for Period 2022.

The increase in the loss in the fair value of the financial assets at FVTPL from approximately HK\$36,144,000 for Period 2021 to approximately HK\$108,892,000 for Period 2022 was mainly attributable to the amounts of fair value loss recognised by the Group on its major financial asset, NT Trust Scheme, and one of its non-performing loan portfolios of approximately HK\$28,948,000 (Period 2021: HK\$5,014,000) and approximately HK\$68,572,000 (Period 2021: HK\$33,076,000) respectively.

D. Administrative expenses

The decrease in administrative expenses from approximately HK\$9

As at 30 June 2022, the Group's cash and bank balances (including pledged bank deposits) were approximately HK\$113,469,000 (31 December 2021: HK\$141,205,000) in aggregate, out of which approximately 4.44% (31 December 2021: 35.8%), approximately 95.51% (31 December 2021: 57.2%) and approximately 0.05% (31 December 2021: 7.0%) were denominated in HK\$, RMB and US\$ respectively. As at 30 June 2022, the Group's total borrowings were approximately HK\$5,455,668,000 (31 December 2021: HK\$5,036,159,000), which comprised (i) a loan in the principal amount of approximately RMB1,980,000,000 (31 December 2021: RMB1,600,000,000) repayable by instalments with the last instalment due in 2026; (ii) a loan in the principal amount of approximately RMB670,000,000 (31 December 2021: RMB670,000,000) due in December 2023; (iii) a loan in the principal amount of RMB86,130,000 (31 December 2021: RMB97,200,000) due in December 2022; (iv) a loan in the principal amount of approximately RMB110,700,000 (31 December 2021: RMB110,700,000) due in December 2022; (v) loans in the aggregate principal amount of approximately RMB28,128,000 (31 December 2021: RMB28,128,000) repayable on demand; (vi) a loan in the principal amount of approximately RMB141,000,000 (31 December 2021: RMB145,500,000) due in February 2024; (vii) a loan in the principal amount of approximately RMB290,000,000 (31 December 2021: RMB290,000,000) due in April 2024; (viii) c

- (i) the Group will continue to implement measures to speed up the collection of outstanding loan receivables;
- (ii) the Group will continue to take measures to expedite the disposal of financial asset investments, including equity investments and non-performing assets; and
- (iii) the Group has been actively negotiating with its creditors for refinancing the borrowings which are due within a year.

Having reviewed the Group's cash flow projections prepared by management, which cover a period of not less than twelve months from 30 June 2022, the Directors are of the opinion that, taking into account the abovementioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due. Accordingly, the Directors are satisfied that it is appropriate to prepare the unaudited interim condensed consolidated financial statements of the Group on a going concern basis.

PLEDGE OF ASSETS

As at 30 June 2022, the Group pledged certain investment properties and leasehold land and buildings with an aggregate carrying value of approximately HK\$2,522,649,000 (31 December 2021: HK\$2,650,502,000) and approximately HK\$195,700,000 (31 December 2021:

CAPITAL STRUCTURE

As at 30 June 2022, the shareholders' fund of the Company was approximately HK\$4,917,761,000 (31 December 2021: HK\$5,231,344,000), representing a decrease of approximately HK\$313,583,000 or approximately 5.99% as compared to that as at 31 December 2021. The decrease was mainly contributed by (i) the depreciation of the RMB against the HK\$ of approximately 4.33% during Period 2022 and therefore an exchange loss charged to the exchange translation reserve resulting from the translation of the books of the subsidiaries of the Company in the PRC; and (ii) the loss of the Group for Period 2022.
